MISSION STATEMENT OF THE SOCIETY

Our purpose, within the context of the Roman Catholic tradition, shall be to promote studies and research in theology, to relate theological science to current problems, and to foster a more effective theological education, by providing a forum for an exchange of views among theologians and with scholars in other disciplines. In this way the Society seeks to assist those entrusted with a teaching ministry of the Church to develop in the Christian people a more mature understanding of the faith, and to further the cause of unity among all people through a better appreciation of the role of religious faith in the life of human beings and society.
